DETAILED ACTION

Remarks

This communication is responsive to the After Final response filed September 22, 2005. Claims 1-19 are now presented for examination.

Allowable Subject Matter

1. Claims 1-19, after further consideration and search, are allowed over the prior art.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art teaches providing a graphical user interface (30) with an initial configuration of the graphical user interface for use by a user (see abstract); and configuring a subsection (of device 56) of the graphical user interface, where the subsection configuration of the GUI is to allow the user to reconfigure the shape of the subsection during use by the user. See Torres' col. 2, lines 39-45, and col. 9, lines 15-35. It is typical in the art to provide a graphical user interface that is used to control an application program, i.e., an audio program by directing the audio program on whether to play, fast forward, change tracks, etc... (see page 1 of the specification). However, the prior art fail to teach the underlying features of the claimed invention, namely, providing a control accessible by a user to independently reconfigure the shape of the subsection [or the remainder] of a GUI in a plurality of user desired configurations in

response to operation of the control by the user without supplying an input to the application program controlled by the graphical user interface and without altering the function of the graphical user interface. As a result, claims 1-19 of the instant application are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sajous Wesner whose telephone number is 571-272-7791. The examiner can normally be reached on Mondays thru Fridays between 11:00 AM and 7:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Bella can be reached on 571-272-7778. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
